Set default resolution for iPad camera? — FileMaker Community

I'm curious if anyone knows about the iPad Air's camera sensor size? I think it takes extraordinary images considering the sensor size must be about a bit more than 1/4" x 3/8" at most. We know that the iPhone 6 has an 8MP 1/3"-type sensor with a 1.5µm pixel pitch.

Re: What is the Apple iPad camera sensor size & resolution ...

If the iPad 2 were to have a the "Retina" resolution some have rumored, then the camera would require the specs of, "QXG". 3.15MP for the 2048×1536 resolution to compensate for this retina, as oppose to the 1MP camera in the files. In addition, a retina iPad display would be VERY costly, more than the average desktop/laptop display.
