A Computer Science portal for geeks. It contains well written, well thought and well explained computer science and programming articles, quizzes and practice/competitive programming/company interview Questions.

Design a Keylogger in Python - GeeksforGeeks

A graphical user interface (GUI) is a type of user interface that allows users to interact with electronic devices in a graphical way, i.e. with images, rather than text commands. Originally interactive user interfaces to computers were not graphical, they were text oriented and usually consisted of commands, which had to be remembered.
