### Guide Coat Primer

Paint Primer: Guide to Basic Uses. ... Glossy base coats do not hold paint well. A light scuffing with sandpaper and a coat or two of primer will help the color coat stick. Even if you decide not to scuff that glossy sheen, using a primer will help subsequent coats stick. Plastics and glossy paints nearly always require some type of roughening ...

### Paint Primer: Guide to Basic Uses - The Spruce

Composition. A primer consists of 20-30% synthetic resin, 60-80% solvent and 2-5% additive agent. [citation needed] Some primer contains polyethylene (plastic), for better durability. Use. Primer is a paint product that allows finishing paint to adhere much better than if it were used alone. It is designed to adhere to surfaces and to form a binding layer that is better prepared to ...

### Primer (paint) - Wikipedia

The primer is the first coat to be applied. The primer serves several purposes. It serves as a leveler, which is important since the cab often has marks and other forms of surface defect after being manufactured in the body shop. A smoother surface is created by leveling out these defects and therefore a better final product.
