Human Universe

Quotes by Brian Cox

- Goodreads

I like this guy Brian Cox. He has a way of adding bags of atmospherics to every statement. However, I must say the thought of the human race being the only intelligence out among the stars is utterly depressing. His analysis and weighing up of both sides of the argument is about as

In this spectacular series, Professor Cox offers an original new perspective on human life: the story of a group of apes that evolved to leave their home planet and step out into the universe. Humans are curious creatures. Of all the species on Earth, we alone ask questions. This series tackles the
