Hyena

Hyenas or hyaenas (from Ancient Greek ἕαινα, hýaina) are feliform carnivoran mammals of the family Hyaenidae / haɪˈɛnɪdiː /. With only four extant species (in three genera), it is the fifth-smallest biological family in the Carnivora, and one of the smallest in the class Mammalia.

Hyena - **Wikipedia**

Hyena, (family Hyaenidae), also spelled hyaena, any of three species of coarse-furred, doglike carnivores found in Asia and Africa and noted for their scavenging habits. Hyenas have long forelegs and a powerful neck and shoulders for dismembering and carrying prey.

Hyena | **Netflix Official Site**

'Hyena' deals with very competitive, private lawyers who only work for the richest 1% of society.

Hyena (TV Series 2020-) - **IMDb**

Brown hyenas are the second largest, ranging from 51 to 63 inches (130 to 160 cm) long and weighing 75 to 160 lbs. (34 to 72.6 kg), according to ADW. Brown hyenas can be distinguished from other...

Facts About Hyenas | **Live Science**

Human-wildlife conflict is a major threat to hyenas. Like many carnivores, hyenas come into conflict with humans when they prey on livestock. They are often seen as a pest species, which often results in retaliatory killings by farmers — especially by poisoning. Humans are encroaching on hyenas' habitats.

Hyena | **African Wildlife Foundation**

Spotted hyenas are famed scavengers and often dine on the leftovers of other predators. But these hardy beasts are also skilled hunters that will take down wildebeest or antelope. They also kill...

Spotted Hyena | **National Geographic**

Directed by Gerard Johnson. With Peter Ferdinando, Stephen Graham, Neil Maskell, Elisa Lasowski. Good policing doesn't necessarily mean doing everything by the book. But as the business of crime in London turns to favour the Albanians and Turks, how does a "good" policeman survive?

Hyena (2014) - **IMDb**

Hyaena is a genus comprising two of the living species of hyenas: the striped hyena (Hyaena hyaena) from Western Asia, India, Central Asia, East Africa and Northern Africa and the brown hyena (Hyaena brunnea) from Southern Africa.

Hyenas on the Hunt | **National Geographic**

Hyenas, especially spotted hyenas, are known for killing as much as 95% of the animals they eat, and for driving off leopards or lionesses from their kills, although they have long been regarded as being cowardly scavengers. Hyenas are primarily nocturnal animals, but sometimes venture from their lairs in the early-morning hours.
