The 1979 parts manual lists a shim, part #325038 to go between the leaf valve and the stop for the 15 hp only. This shim sells for \$2.94 each. This shim sells for \$2.94 each. It was carried on up into 1992 for the 15 hp, which apparently allows the 15 hp to breathe a little better.

Maintaining Johnson/Evinrude 9.9 part 1

A flush toilet (also known as a flushing toilet, water closet (WC) – see also toilet names) is a toilet that disposes of human waste (principally urine and feces) by using the force of water to flush it through a drainpipe to another location for treatment, either nearby or at a communal facility, thus maintaining a separation between humans and their waste.

Flush toilet - Wikipedia

Natural release doesn't require you to move the steam valve manually, so there isn't as high a risk of coming into contact with hot steam. However, the natural release method is not always your best choice. Food continues to cook during this process, leading some foods to overcook. For those, you'd want to opt for the quick release method.

Manual. Set a custom pressure level and cook time using the Adjust and [+] or [-] buttons. When working pressure is reached, time will begin to count down. (On the older Instant Pot versions, it was easy to confuse the Pressure and Manual buttons, which is why the terms were changed for newer versions.)

Which Instant Pot Buttons to Use - Pressure Cooking Today™

My husband cooks a lot of pressure cooker hard boiled eggs and he agreed the time to cook the eggs was the same in the Power Pressure Cooker XL on the rice setting and in the Instant Pot using high pressure and the manual button – 6 minutes with a 6 minute natural release. The Power Pressure Cooker XL does take longer to come to pressure ...
