Unlike many receivers, the Monitor 1600 illuminates its tuner-frequency display only when the tuner is selected as the program source. The tuning controls are two buttons to the right of the window. The search button below them selects either manual tuning (in steps of 50 kHz for fm and 10 kHz for am) or a continuous scan until a station is received.

NAD Electronics Monitor Series Preamp Tuner 1600 for sale ...
Anyone know the difference between NAD 1600 and NAD 1700 preamps? NAD's site only talks about the 1700, so I'm assuming the 1600 is older. They are very similar when you compare the front/rear panel. Ebay has 1 or 2 of them a week. I have a carver ct3 right now I don't like and am tempted to buy a 1600 or 1700 off ebay to try.
