### Nissan Frontier Check Engine Soon

A check engine light can indicate a broad spectrum of problems with your 2009 Nissan Frontier. In some cases you need to pull over immediately to prevent damage while in others you merely need to tighten you gas cap next time you stop in order to reset the service engine soon light. The video above shows how to locate the on board diagnostics (OBD) plug on your 2009 Frontier, how to read the trouble codes and how to reset or clear the check engine light using a scanner on your Frontier.

### Engine Light Is On: 2005-2019 Nissan Frontier - What to Do ...

The service engine soon light is often mistaken for the check engine light. The check engine light is a light to warn you to a possible issue with your exhaust system or emissions system. The service engine soon light can come on for minor issues like a loose gas cap, or for more major problems such as possible engine failure. Your Service Engine Soon Light Should Not Cause You to Panic. The light does say service engine soon, but you may not necessarily have to make any major repairs soon.

### What Does the Service Engine Soon Light Mean on a Nissan ...

Yes a defective fuel cap can cause a check engine light. Typically a "small evap leak" IF it's that, a new cap if you broke it would eventually reset itself, but I would take it to an auto parts store. Most of the big chains would scan the codes for free... Do that before spending the \$\$ on the gas cap.

### "Service Engine Soon" Light | Nissan Frontier Forum

A flashing check engine light is your Nissan Frontier's way of saying "I have a serious problem, don't ignore me". Most of the time, that serious problem is a misfire. This flashing light should not be ignored. When your engine is misfiring, it is dumping raw fuel into the exhaust.

### Nissan Frontier: Flashing Check Engine Light Diagnosis ...

Under normal operation, your Nissan check engine light should come on when you insert the key in the ignition. After 5 seconds or once you start the engine, the light should turn off as long as no fault codes are present. If the check engine light stays on, the problem can be something as simple as a loose gas cap or a faulty oxygen sensor.

My 2007 Xterra did the same exact thing this morning. My wife said it didn't want to start but finally did (it's like 15 degrees F here today) and she said the "check engine soon," "SLIP," and "VDC Off" lights were all on and it wouldn't move. I tried all gears and 4WD but it would only creep back in to the driveway with the accelerator buried.
