### Help Center - Customer Support | Polaris RANGER

Did a quick search on Polaris 651 code and Polaris XP 651 code and came up with an injector issue: Manual says it is Injector 1 (MAG) (SDI PART LOAD) Driver Circuit Grounded. Sounds like you may have one that's gone bad! Polaris should replace it w/o any questions - and it's a quick thing to change out - as long as they have the part in stock.

Posted by Mike McDaniel on Jun 14th 2020 Thank you so much for solving the issues with my Polaris! I have no more aggravating check engine light, and my engine runs cooler after you changed the settings on the cooling fan, even in this hot Arizona desert my engine temp never hit the 200 degree mark.
