Nelson Math Workbook Answers Grade 8 - Exam Key 2021

A prime number (or a prime) is a natural number greater than 1 that is not a product of two smaller natural numbers. A natural number greater than 1 that is not prime is called a composite number. For example, 5 is prime because the only ways of writing it as a product, 1×5 or 5×1 , involve 5 itself. However, 4 is composite because it is a product (2×2) in which both numbers are smaller ...

The Genki textbook and workbook have really helped him gain the depth and practice he needs. He seems to enjoy using both books--that's an accomplishment, considering that he is a bright kid who gets easily bored in school. I would recommend this book and the accompanying workbook to anyone wanting to begin learning Japanese.
