extremely be among the best options to review.

Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Pronouncing American English: Sounds, Stress, and ...

Pronouncing American English: Sounds, Stress, and Intonation is a versatile textbook. According to the author, it is suitable for beginning-, intermediate-, and advanced-level students (although I judge that beginning-level 768 TESOL QUARTERLY students would have difficulty using it due to the amount of reading required and the level of vocabulary necessary to interpret the material).

Learn How to Pronounce the 15 Vowel Sounds of American English

Pronunciation involves far more than individual sounds. Word stress, sentence stress, intonation, and word linking all influence the sound of spoken English, not to mention the way we often slur words and phrases together in casual speech. 'What are you going to do?' becomes 'Whaddaya gonna do?'

Teaching Pronunciation

The vowel sound within the syllable being stressed is often pronounced louder and for slightly longer than the other sounds. It is also sometimes given a higher pitch. In the case of the word "Birthday", the first syllable is stressed, making the pronunciation look a little more like this: "BIRTHday".
