team process factors that contribute to team effectiveness, as well as actions and interventions that can be used to shape the quality of those processes. As noted in Chapter 1, this evidence base consists primarily of studies focusing on teams in contexts outside of ...

Overview of the Research on Team Effectiveness - Enhancing ...

A team is a group of individuals (human or non-human) working together to achieve their goal.. As defined by Professor Leigh Thompson of the Kellogg School of Management, "[a] team is a group of people who are interdependent with respect to information, resources, knowledge and skills and who seek to combine their efforts to achieve a common goal".. A group does not necessarily constitute a team.

Team - Wikipedia

Team effectiveness is also measured by outputs, linking it to team performance. Team performance is a component of team effectiveness because teams are generally considered to "perform well" when they yield superior outputs, which is one of the metrics of team effectiveness mentioned by Guzzo and Dickson above.

...

The adage that project management is both science and art is true. Project manager (PM) effectiveness hinges on the "right" combination of experience, knowledge, leadership, and soft skills. Team effectiveness is an outgrowth of PM effectiveness. How well a PM creates and develops his or her team, and leads the project to successful execution, directly relates to this "right" combination ...
