the market in 1996 for the 1997 model year as a replacement for the Bronco. The Expedition is based on the design of the Ford F-150 and shares a number of components with that model.

Ford Expedition Parts - PartsGeek.com

8. If the draw is found to be excessive, pull fuses from the battery/central junction box one at a time and note the current drop. Do not reinstall the fuses until you are finished testing. 9. Check the wiring schematic in the wiring diagram for any circuits that run from the battery without passing through the battery/central junction box.

Battery drain? | Ford Expedition Forum

Battery cables carry electrical current from your car's battery to the starter and then into the car's electrical system. This allows your car to run electrical devices like your radio with the car off, and provides your car's starter with the energy it needs to get
