In 2015, another recall issued by Harley-Davidson targeted its classic Road King model and other models from 2014 and 2015. This recall involved problems with the clutch system which won't fully disengage. In the report, Harley-Davidson said this is the result of gas bubbles in the master cylinder clutch.

The 8 Most Common Harley-Davidson Problems & How to Handle ...

I have a 99 Road King Classic with 27K miles (purchased recently). When I got it 4K miles ago, it started and idled normally but occasionally the check engine light would come on. Took it to Harley who checked it and said there were not faults in memory. Cleared the light and sent me away. 2 days later, the same problem showed up. Now, I am having issues with it starting when cold or warm.
