Universal Design for Learning (UDL) is a framework to help teachers design teaching and learning that supports all students. Instructional methods, when planned and implemented intentionally, can help every student to succeed. UDL helps teachers navigate, create and adjust resources that are inclusive while meeting our legal obligations under the Disability Standards for Education (2005).

Universal Design for Learning planning tool

Definition: Service design is the activity of planning and organizing a business's resources (people, props, and processes) in order to (1) directly improve the employee's experience, and (2) indirectly, the customer's experience.

6th Century BCE: The word 'theatre' comes from a Greek word "theatron," meaning meaning "to behold" "a place for seeing". Prior to 342 BCE, theatres were temporary wooden structure built for the Dionysus Festival (in the City Dionysia) and dismantled when the celebration was concluded. The audience probably sat on wooden benches (theatron) and the actors and chorus performed on ...
