Pine tar is a form of tar produced by the high temperature carbonization of pine wood in anoxic conditions (dry distillation or destructive distillation).The wood is rapidly decomposed by applying heat and pressure in a closed container; the primary resulting products are charcoal and pine tar.. Pine tar consists primarily of aromatic hydrocarbons, tar acids, and tar bases.

Pine tar - Wikipedia

A bezoar is a mass often found trapped in the gastrointestinal system, though it can occur in other locations. A pseudobezoar is an indigestible object introduced intentionally into the digestive system.. There are several varieties of bezoar, some of which have inorganic constituents and others organic.The term has both a modern (medical, scientific) and traditional usage.
