Mark Ivor Satin (born November 16, 1946) is an American political theorist, author, and newsletter publisher. He is best known for contributing to the development and dissemination of three political perspectives – neopacifism in the 1960s, New Age politics in the 1970s and 1980s, and radical centrism in the 1990s and 2000s. Satin's work is sometimes seen as building toward a new political ...

Marxian economics, or the Marxian school of economics, is a heterodox school of political economic thought. Its foundations can be traced back to Karl Marx's critique of political economy. However, unlike critics of political economy, Marxian economists tend to accept the concept of the economy as a reasonable object of inquiry in itself, in contrast to those engaged in marxian critique of ...
