The Future Of Africa A
Africa currently has a population of nearly 1.2 billion people, or 16% of the world total, a figure that is expected to double by 2050, bringing Africa's share of the global population to 25%. The child population will experience significant growth. By 2050, 40% of all children under five will live in Africa, according to a UNICEF report 1.

Is Africa the Continent of the Future? | Planète Énergies
The Future Project has a simple mandate – to build empowered citizens across Africa, through (inclusive) enterprise and (active) citizenship.

The Future Project
The promise of Africa's future rests on its large number of young people. A new generation of African leaders and innovators comments on the hope this presents amidst persistent realities. When looking at Africa's future, experts often cite the continent's large, growing young population as an asset.

Countries such as South Africa, Namibia, Botswana, Victoria Falls (Zimbabwe and Zambia), Zanzibar (Tanzania), Kenya, Rwanda and Uganda were seeing increased interest and growing in popularity as events destinations. It's unsurprising as Africa offers a vast array of exceptional, customized and personalized locations that exceed expectations.

Why It Must All Ad Up - Forbes Africa
The Future Africa Forum, this year's signature policy and business event of The Africa Center in partnership with the Aliko Dangote Foundation, is a platform for sharing new ideas and strategies that challenge the structures and systems that support one-dimensional narratives of the continent, and that inform policies and ultimately affect the lives of African people, those of African descent, and the future of Africa.

The Future Africa Forum
According to the African Development Bank, Africa is projected to have 321 million youth by 2030. The informal sector accounts for 60-80 percent of employment and up to 90 percent of new jobs in Africa. 10-12 million youth are joining the labor force yearly, with the job market being able to absorb only 30%.

The legacy Future Africa is working towards is building a truly Pan-African research hub. Being able to say, years from now, that the center was instrumental in training a Kenyan Ph.D. student or a postdoctoral fellow who has gone home to launch a life-changing project in Nairobi, is an ambition worth chasing, Slippers says.
