Zenoah G26 Engine

The G26 fits nicely in the cowling and puts the CG a little on the nose-heavy side without any counter weight. The Monocoupe and engine has a total weight of 13 pounds. While this is over the range called for in the manual, the airplane carries it well. The performance is astounding! As small gas engines go, the Zenoah G26 is probably the best ...

> Zenoah includes this cool air horn to aid with airflow in the cowl .. however the bolts included are too long - they bottomed out one the engine block - this would not allow the carb to be tightened fully to the phenolic block. As a result the engine ran really rough, died on throttle transition and would not idle.

Zenoah RC Engines & Parts - AMain Hobbies

The 2005 Zenoah 2 bolt G260RC engine is a 25.4cc (34mm bore, 28mm stroke) performance machine. The engine features a stronger intake manifold for better thermal isolation, a red silicone spark plug cap, new blue gaskets, wider intake and exhaust ports, a lighter 34mm piston and thinner ring for reduced reciprocating mass, and improved transfer port matching between cases and cylinder.

Zenoah Engines - Hobby Supplies

Engine Timing will make or break your project. If you time it perfectly, you will see a major increase in RPM over the original magnito. So taking your time here is important. The procedure is simple, but it needs to be done right! I have found the G26 runs best at +30 degrees advance with 87 octane gas.
